

TraderQuotes.com from TradingEducation.com LLC offers free, fast, dependable quotes for stock, futures and forex traders

Wesley Chapel, FL, November 9, 2007 – TradingEducation.com, LLC today announced the launch of TraderQuotes.com, part of the TraderWeb.com network of affiliated websites offering education, chat, blogs, quotes, news, quizzes and more.

TraderQuotes.com delivers free, fast and dependable quotes, charts and data for stock, futures and FOREX traders. TraderQuotes.com users can easily set up portfolios, apply indicators and access and analyze historical performance data for a wide variety of financial instruments.

“TraderQuotes.com provides completely free access to the crucial financial market information every trader needs to achieve success,” said Lane Mendelsohn, Publisher of TradingEducation.com, LLC. “Not only do traders get constantly updated price quotes but they also can see the latest readings for pivot points, retracement levels, moving averages and a number of other technical indicators that are vital to analyze today’s fast-moving markets.”

About TradingEducation.com, LLC

Formed in September 2005, TradingEducation.com, LLC has developed a suite of educational Web sites dedicated to helping traders at all levels gain meaningful knowledge about stocks, exchange-traded funds, commodities, currencies, futures and options so they can make better trading decisions and avoid costly mistakes.

All information on TradingEducation.com, LLC websites is free to the public, with operational initiatives supported solely by advertisers. TradingEducation.com is sincere in its efforts to help new traders learn the basics of trading and experienced traders learn new ideas and strategies that they can apply in their trading approach.
