"The Tom Liu Memorial Golf Classic was created to further our commitment to charitable giving and community outreach," said Joyce DeLucca Managing Principal of Kingsland Capital Management, LLC. "We are incredibly thankful for the heartfelt donations we continue to receive from our colleagues throughout the financial community, it has been a pleasure working together to raise the vital funds needed to treat those affected by colorectal cancer, and to support their families."

"The University of Michigan Comprehensive Cancer Center is committed to the treatment and prevention of colorectal cancer. In these times of reduced federal funding from the National Institutes of Health, the funds from the Tom Liu Golf Classic have provided support for our work to identify genetic alterations associated with development of colon cancer in young individuals," said Dr. Elena Stoffel, the Director of the Cancer Genetics Clinic at the University of Michigan Comprehensive Cancer Center. "We care for many families affected by cancer, and work to develop strategies to better identify individuals at high risk so we can intervene early with colonoscopy, surgery or medications, to help prevent tumors from developing."
